We are so happy your group was able to come and learn with us! As you prepare to head back into the classroom, here are a few ways to extend the learning from your visit.

**Post-Visit**

**Question for Further Discussion:**
How can we practice strategies of land stewardship in an urban environment?

**Topic for Research:**
Identify ways your community currently practice strategies of land stewardship.

**Activities:**
- Organize a community event to educate the public about Land Stewardship.
- Propose and implement plans at your school that promote land stewardship.
- Attend a city council meeting and strategize ways you can become involved in the process of legislation within your community.
